

Our Services

In Home Care and Support

Caregivers are available for long or short term care, 24 hours a day, 7 days a week, including live-in support. We can be there on short notice when a crisis happens or when care is needed immediately.

Home Health and Hospice Support

We partner with many Living Communities, Home Health Agencies and Hospice Organizations for performing “non-medical” tasks cost effectively.

Rehabilitation Support

We can be there when a loved one returns home from a hospital stay or surgery. Our caregivers can be there to protect against falls, assist with daily living and make certain care plans are followed.

Who is Havenwood

We are an independent owned and locally operated agency that provides non-medical in home care services.

Our quality caregivers are trained to provide a wide variety of in home care services to help seniors and those in need to remain and live safely and independently in their own home. We allow your loved one to Age in Place.

We network with a wide variety of other agencies and professionals with services including Senior Case Managers, Hospice, Home Health, Respite and Housing and Moving resources. We are here to help find solutions to all your needs.

Peace of Mind

Havenwood is licensed, bonded and insured to provide quality care at all times.

You can be assured that will match your loved one with a specific caregiver with you they feel comfortable. Caregivers always have the necessary skills, experience, compassion and sensitivity to provide excellent support and care.

All of our caregivers are screened, trained, supervised and must complete an extensive background check prior to be given the privilege of care for your loved one. They all receive ongoing training with a special emphasis on Alzheimer’s and dementia care.

We have care managers in place to make certain your loved one is getting the support and service they need.

It’s Easy to Begin!

- A) Call for a free assessment, we will answer your questions up front.
- B) Set up a “no pressure” meeting to meet one of our care managers. If you wish, we can create a care plan and schedule.
- C) Determine the best start date to meet your needs.
